Uvod

Korišćeni programski jezici

Mark-up jezici: HTML, CSS, XML

JavaScript, JQuery, PHP

Okruženje: Visual studio code

Opis funkcionalnosti

1. Dinamičko ispisivanje menija iz baze na svim stranama. Zavisno od uloge prikazuju se različiti linkovi.
2. Dinamičko ispisivanje kategorija(slika i naziv) iz baze na početnoj strani. Klikom na kategoriju, otvara se strana sa receptima iz te kategorije
3. Ispisivanje dva najnovija recepta(slika, naslov i uvodni tekst) iz baze na početnoj strani
4. Ispisivanje random 5 komentara
5. Ispisivanje futera na svim stranama
6. Ispisivanje svih recepata na stranici receptis(slika, naslov i prosečna ocena recepta i link za pregled recepta). Funkcionalnost straničenja koje je upareno sa poljem za pretragu i kategorijom (ukoliko je izabrana kategorija)
7. Prikaz pojedinačnog recepta(slika, uvodni tekst, recept, komentari i ocena ulogovanog korisnika)
8. Mogućnost komentaranja za ulogovane korisnike, ispisivanje odgovarajuće poruke(klijentska i serverska validacija)
9. Mogućnost ocenjivanja za ulogovane korisnike, ispisivanje odgovarajuće poruke. Ako je korisnik već ocenio određeni recept i promeni ocenu, ona se ažurira
10. Forma za slanje recepata autoru bloga(samo ulogovani korisnici, klijentska i serverska validacija, ispisivanje odgovarajuće poruke)
11. Kontakt strana sa formom za slanje poruke administratoru(klijentska i serverska validacija, ispisivanje odgovarajuće poruke)
12. Anketa na kontakt strani. Samo ulogovani korisnici mogu glasati. Ako je korisnik već glasao, anketa je onemogućena i prikazano je šta je korisnik izabrao. Moguće je pogledati rezultate ankete
13. Logovanje i registracija korisnika. Vršiti se klijentska i serverska validacija. Ispisuju se odgovarajuće poruke.

- ## 15. Slanje mejla za aktivacijo naloga

Pie Crust Recipe

Making a perfect buttery flaky pie crust is easier than you can imagine and the perfect pie dough recipe is the foundation for every amazing pie you can think of. I've included all my tips and tricks for the best pie crust whether you're making it the old fashioned way by hand or with a food processor.

Prepare:

Add the flour, salt, and sugar to a large bowl and whisk together to combine. See below for steps to make pie dough if using a food processor. Cut the cold butter and mix with the flour. Use your own hands to break the butter into smaller pieces. You want a range of pieces from small lentil-sized pieces to larger chunks the size of almonds. Drizzle in three tablespoons of ice water and then mix with a fork. The dough should become moist "shaggy" and less crumbly. Now you can either add 2 more tablespoons of ice water or sprinkle in two tablespoons of lemon juice or vinegar and/or vodka. Add in the lemon juice and vinegar will inhibit gluten development. Vodka will help bring the dough clumps together without activating the gluten and the alcohol then bakes off. If your crust is a bit crumbly still you can sprinkle in an extra tablespoon of liquid. Gently knead it together until the dough clumps together. I like doing this in the bowl since there's less cleanup and it's all contained. Shape it into a disk and wrap tightly in plastic wrap. Chill for 1 hour or up to 3 days. Don't worry if the dough seems a bit dry, it comes together as it bakes. Once your pie crust is chilled, remove it from the fridge and let it warm up on the counter for a few minutes. Roll it out to about 14 in x 18 in, then transfer it to a pie pan or baking sheet if you're making a galette. The bake time will depend on the form and filling.

Comments

Anja Ristic
I can't wait to try these pie crust recipes! They look absolutely delicious and I will making these first thing in the morning!

Lemon Cupcakes

When life gives you lemons, make a big batch of lemon cupcakes! These are one of my favorite cupcake recipes. I love the fluffy, moist crumb with that lemony frosting. Each bite is perfect. I loved these simple buttercream lemons as a decoration idea. They're delicious any way you make them but if you feel like breaking those piping tips out then I highly recommend giving this a try!

Prepare:

Preheat oven to 375 degrees F (190 degrees C). Line 30 cupcake pan cups with paper liners. Sift the self-rising flour and salt together in a bowl. In another bowl, beat the unsalted butter and sugar with an electric mixer until light and fluffy. Beat in the eggs one at a time, beating each egg until incorporated before adding the next. Mix in the vanilla extract and lemon zest. Gently beat the flour mixture into the butter mixture, one third at a time, alternating with half the milk and half the lemon juice after each of the first 2 additions of flour. Beat until just combined, do not over mix. Fill the prepared cupcake liners with batter 3/4 full, and bake in the preheated oven until a toothpick inserted in the center comes out clean, about 17 minutes. Let the cupcakes cool in the pans for about 10 minutes before removing them to finish cooling on a rack. To make the icing, beat the cream in a chilled bowl with an electric mixer set on Low until the cream begins to thicken. Add the confectioners' sugar and lemon juice, a little at a time, beating after each addition, until fully incorporated. Increase the mixer speed to High, and beat until the icing forms soft peaks, about 5 minutes. Spread on the cooled cupcakes. Refrigerate leftovers.

Update Avocado Salad

Avocado Salad

Choose File

No file chosen

This delicious avocado salad features lots of citrus, avocado, creamy burrata, tomatoes, chickpeas, and a light zingy dressing. It comes together in a snap and pairs wonderfully with nearly everything!

For the salad, start off by cutting the peels off of the blood oranges and grapefruit. Once you have your peeled blood oranges and grapefruit, cut them into thin slices. Cut the avocado in half, remove the seed and the skin, then roll it into slices. You'll also want to cut the burrata into thin slices as well. For the dressing, in a small mason jar or bowl, pour in 1/4 cup of olive oil. Add 1/4 cup of vinegar. I used blackberry vinegar, but you can use a white vinegar or another kind of your choice. Cut the orange in half and squeeze in about 3 tablespoons (hold the seeds!). Add the salt and pepper, put the lid on and give it a good shake. Combine all of the ingredients into a bowl and give it a toss with the dressing. Enjoy!

Update
